

Alpitronic is a privately owned company and finances its growth through its own resources. We want to stay independent. This is why we seek appropriate profitability.

Our employees are at the heart of our success. A strong corporate culture and value-oriented leadership are important to us. The Alpitronic management therefore always lends an open ear to our employees' needs and tries to act on their requirements and suggestions wherever practicable.

Occupational safety and health protection as well as the protection of the environment are of great importance in our company. In order to minimise risks, we must eliminate potential safety hazards immediately with the help of all parties involved.

We are committed to continuous improvement and development in our staff, our organisation and our management system (and specifically in our corporate policy, in accordance with ISO 9001, ISO 45001, ISO 14001, ISO 27001, Code of Ethics, Supplier Code of Conduct).

Our communication culture within the company is open and transparent.

We want long-term satisfied customers. We therefore provide products and services of the highest quality that lead the market. We foster an open and constructive attitude our customers and handle their requests in a timely, high-quality and helpful manner.

By maintaining a cooperative relationship with our partners and suppliers, we aim for a win-win situation on both sides, demanding the same standards in technology, efficiency and reliability as we adhere to ourselves.

We prioritise the prevention of mistakes over the correction of mistakes. We therefore consistently apply methods and tools of preventative quality assurance. We learn from our mistakes and remedy their causes immediately.

We are committed to protecting the environment and avoiding unnecessary environmental impact in the name of sustainability, as well as continuously improving our environmental performance.

We commit to complying with all legal provisions that apply to Alpitronic and its products as well as with all guidelines that we ourselves define as binding.
