

Cable and Plug

1. Remove the wall mounting (B) by unscrewing three screws from the lamp body (A). Also, unscrew the upper wall mounting (C) by unscrewing allen screw with 2mm allen key.

2. Place the cardboard template on the wall and mark plotted positions (D) so the position of rotating arm (E) is on desired height. Always pay attention that the cardboard plate is perpendicular to the floor.

3. Mount the wall mountings to the wall with appropriate screws and plugs. Always use correct screws and plugs for the mounting surface.

4. Attach the lamp body back to the wall mountings.

5. To turn on the lamp, tap the switch button (D) located on the horizontal arm. Hold the dimmer switch button to adjust light intensity.

Important

The safety of this product can only be guaranteed if these instructions are observed, during both installation and use. We advise to keep these instructions.

If the product requires installation, it should be performed by a qualified electrician.

This luminaire must be connected to a grounding electrical system. Always turn off power to the system before starting installation work. Whenever acting on the luminaire (i.e. changing the light bulb), ensure that the power supply has been switched off.

Different materials require different types of fittings. Always choose screws and plugs that are best suited for the material on which you are installing the luminaire.

Warning

This product has been carefully handmade and due to the nature of such work please allow slight variations in the surface of the material.

Do not use force to assemble the luminaire. Do not over-tighten the components when assembling.

Do not disassemble this product. Grupa declines all responsibility for products that are modified without prior authorization.

This product is for indoor use only. Do not immerse this product into water.

Regularly check that there is no damage to cables and other parts. If the external cable of this luminaire is damaged, it must be exclusively replaced by the manufacturer or its authorized service agent or similar qualified persons in order to avoid a hazard.

Light Source

The product contains integrated LED light source of energy efficiency class E.

Environment

Do not throw this product in regular household trash but in a proper waste disposal that is suitable for similar electrical appliances.

Cleaning

Powder-coated surfaces should be cleaned with aqueous solutions made from pH-neutral detergents or cleaning products and soft, non-abrasive cloths, rags or industrial cotton batting.

Always clean metal surfaces gently and without scrubbing so that the surface is not scratched. Never use cleaners containing granular substances, acetic acid or citric acid.

Feature

To turn on the lamp, tap the switch button (H) located on the horizontal arm. Hold the dimmer switch button to adjust light intensity.
